

WE'RE READY TO WELCOME YOU BACK

As a result of the COVID-19 pandemic, Alma's LDS Tours Company has added new cleaning parameters, and intensive training to all our tour guides to guarantee the correct sanitization procedures during our tours.

As we proceed to re-open activities, our priority is to safeguard the health and well-being of our customers and our staff. As part of our commitment, we have developed and implemented a sanitary protocol to our vehicles, and equipment to ensure and guarantee a great experience during your upcoming visit to Cancun.

Our sanitary protocols are aligned and compliant with the World Tourism Organization guidelines and recommendations. We are also committed to following the measures of the highest hygiene standards. To do so, all the cleaning and disinfecting products used by our staff meet the recommended criteria published by CDC (Centers for Disease Control and Prevention), and the WHO (World Health Organization).

The execution of this COVID-19 sanitary protocol will allow us to offer you peace of mind trip and safe experience in our tours.

To maintain a safe and virus-free environment in all tours we have implemented the following measures:

- Vehicles and equipment will be sanitized daily and after each use with a medical-grade disinfectant spray
- All surfaces throughout the vehicle will be disinfected prior to your tour
- Guests will be provided with antibacterial gel (70% alcohol-based) upon reception
- As a state requirement, all guests must have their temperature checked upon reception to be permitted on the tour
- Staff must properly wear facemasks throughout the execution of the tour and within the work area
- Our tour guides are updated with the latest CPR guidelines
- We highly recommend you to bring your own face mask
- Reduced number of participants

Your safety is our priority, and we want to let you know that we're ready for you.
